Chaps

Windows

When I delivered the building contract to site yesterday I met up with Rydon and Matt Smith yesterday, and had a window discussion – I am looking to take this report to Peter Maddison and David Gibson, but am waiting for Rydon to verify that the proposed windows will meet building regulations.

Cladding

I have just been looking at the cladding as our database is asking for costs (I have put something together). However, I do not know if there is any issue of flame retardance requirement? I know at Lacknall House one issue was that the replacement panelling for the asbestos cladding was not flame retardant ! I don't know if this is in the specification, but want to make sure it is raised. Please advise.

Thanks

Simon

I have amended to reflect Matt's comment. I will ring you about this in the next 10 mins.
