Morning David,

Cc:

Thanks for this.

To keep you in the loop we are in the process of constructing some timber vents to recreate the old vents that were removed, This should produce the same amount of airflow and stop any build up of gases in the basement, Once these are complete I will contact Anthony Cheney to arrange for cofely to come to site to test and re-commission the boiler.

Kind Regards

Simon O'Connor, ACIOB, M InstLM Project Manager
