Hi Jonathan,

I am afraid I do not have access to that document.

I imagine that this will be a controlled document and only available through marketing. I am not sure if there would be a requirement for a non-disclosure agreement etc?

Please speak to Debs in the first instance and if necessary she will have a chat with Paul.

Kind regards,

**Jamie Hayes**

Hi Jamie,

Do we have test results for RS5000 for the BS476 Pt7 (fire class rating) as Dan mentions below.

I can always go and visit Dan to discuss the BS8414:2 test results in person.

Kind regards,  
Jonathan

Good Morning Jon,

Sorry – but got a headache for you!

We are being asked by one of our clients to see the test results and certificates for the RS5000 insulation.

They want to know exactly how it was installed when tested to BS 8414-2:2005, who carried out the testing, how it was fixed, what it was covered with, what cladding was used, what support structure, etc and most importantly the results. Drawings and or photos of the test set up would help show how it was installed, but I imagine these form part of the test results anyway.

They also want to see the certificate and results for the test to BS476 Pt7 (fire class rating), showing the index rating achieved during the test.

Could you sort this out for us please? We are hoping to put this forward on most of the cladding jobs, so having this information to hand would be most useful

Kind Regards

Daniel Anketell-Jones  
Design Manager
