**Subject:** RE: Celotex Reports

Hi Paul.

Thank you for coming into the MK Office yesterday.

By copy of this e-mail I will forward the reports to John and Dave.

We look forward to receiving further details from the desktop study as discussed yesterday, with specific reference to the one fire test completed thus far.

In the interim please let us know if you need further information.

Kind regards

Graham Perrior MCIOB

**Subject:** Celotex Reports

Graham,

As discussed at our meeting yesterday, please find attached our full test report for RS5000 as well as the first draft we have received on a desktop study.

We will speak with Exova with regards to their assumptions made on the full report to generate their recommendations on other systems. In the meantime, based on the desktop study, if you could please confirm to us the NHBC position on RS5000 in use with a brick outer build up (as highlighted in the desktop report) it would be much appreciated.

Please contact me if you have any queries. Unfortunately I do not have email addresses for John Lewis and Dave White so could you please forward this on.

Look forward to hearing from you.

Regards

Paul
