Subject: RS5000 18+ Statement
Importance: High

Jonno / Rob,

Please can you review my "Generic" response to those parties that are awaiting a response on the use of RS5000 on facades above 18m in height on NHBC Projects.

"Dear xxxxx,

We are currently benchmarking our RS5000 BS8414:2 test data with the NHBC and have submitted a number of our own desk top studies to them for comment.

Until this process has been completed we will have to postpone any further testing or desk top studies until the initial process has been completed with the NHBC.

So as not to delay your projects at the critical Design and Build stages Celotex will have to ask you to explore other avenues for insulation products to be used specifically in facades that are over 18m in height, insured by the NHBC.

I can only offer my apologies at this time as I thought that the process would be far more advanced by this stage.

I will of course inform you as soon as I have more positive news.

**Kind regards,
Jonathan"**
