Hi Jonathan

Attached is a short summary I've just put together in conjunction with the email you sent.

Feel free to add or amend. Once returned I will keep it as a guide for us and also show Paul Evans. I've not really discussed anything with him yet. I was waiting for us to get our heads together and come up with the plan.

Kind regards

Debbie Berger

Subject: BRE Meeting / RS5000 Notes and Follow-up / BBA
Importance: High

Hi Debs,

Here is my understanding and follow-up tasks following our meeting with Steve Howard at the BRE and conversations since;

- **RS5000 needs further system testing**
 - We need advice on "Standard Applications" i.e.
 - Cladding Tile Types – JR to review those that have A2 rating and BBA Certs.
 - Insulation thickness – DB to review Typical U-Values to ascertain Thinnest & Thickness
 - Passive Fire Barriers – JR to investigate market
 - Sheathing Boards – JR to investigate market
 - After Collation of Data we should invite Andrew Jones (Total Façade Solutions) to direct us

- **SFS & Brick Façade Testing** – Consider test as part of BS8414:2 (As instructed by Steve Howard). - **DB**
- **Further testing will offer better base data for clients designing rainscreens.**
- **BRE**
 - Steve Howard would like to meet with a Façade Consultant to better understand the decision making process when designing a rainscreen façade.
 - **JR** to put forward Andrew Jones (Total Façade Solutions) as a potential advisor.
- **BBA** – Apply for Certificate at the earliest opportunity. - **DB**

I hope that I have encompassed everything that we have discussed.

Kind regards,
Jonathan

Jonathan Roome
