**Subject:** RE: Blackfriars

Hi Guy

I'll give you a call to discuss.

Attached is a technical note from NHBC detailing acceptable wall build ups in buildings above 18m and no longer require a desktop study.

Kind regards

**Debbie Berger**

Morning Debbie,

Could you please clarify your queries on the email – it may be something Stanmore can assist with.

Thanks,

**Subject:** Blackfriars

Morning Jane

I'm working with Exova to produce a desktop study using Celotex RS5000 in a ventilated rainscreen system. This will demonstrate Celotex RS5000 meets the requirements of BR135 and is suitable to be used in buildings above 18m as part of the designed wall constructions being used on the Blackfriars project.

The report can also be shown to NHBC for sign off.

Before we can proceed, I have one or two outstanding questions.

Please will you give me a call as soon as possible to discuss.

Many thanks

**Debbie Berger**
