No problem. Catch up later.

What might help is a checklist of all things that need doing for this in your absence.

Thanks  
Paul

**Subject:** FW: Test Report Comments

Paul,

We'll discuss in more depth later on when we do the official handover but I've spoken to Luke @ Simco this morning and he expects to have the updated drawings of the rig complete by tomorrow if not end of week.

I've asked him to send these through to you in my absence. Can you please run these by Jamie to check all the details and send through to Phil @ BRE the relevant drawings to replace figures 4,5 & 6 of the test report. Phil will then implement these into the report with the other amends and put forward to Steve Howard(his boss) to complete and sign off. Phil is due to go on annual leave himself on the 10<sup>th</sup> July so have urged him to complete the amends and put through for final publication before he goes away.

Jamie is aware of what needs amending on the drawings so he will be able to identify that the correct changes have been made.

Thanks

**Jon Roper**

**Subject:** Test Report Comments

Phil,

As discussed, please find attached our first draft comments for our BR 135 test report. Annotations are highlighted throughout the document and we will send through the revised drawings to replace figures 4,5 & 6 once we receive updated details from Simco this week.

As previously discussed, could you also replace figure 18 with the attached photographs as we want to show a close up of the condition of our insulation below and above fire break with the intumescent fired off. If you feel you also have a suitable photograph, then please include.

We expect to receive the updated drawings from Simco this week which will be checked in my absence by my colleagues Paul & Jamie who will then forward these onto you for inclusion in the final report. As previously mentioned, it's imperative that we progress the report in anticipation for our planned launch at the beginning of Aug so if you could update the report and pass onto Steve Howard before you go away, I'd be obliged.

Any queries, please contact Paul Evans in my absence.

Enjoy your break and I will speak to you when you return on the 28<sup>th</sup>.

Regards

**Jon Roper**
