Hi Folks

Please find attached latest version of the revised Procedural Guide. It still needs some work on the appendices but otherwise I have gone about as far as I can go with it.

Given that the RRO is still in scrutiny our original programme for issuing the guide for consultation will have to wait. However I am contractually bound to produce a draft for the 15th June and this will be given to the BRAC Part B working party for comment.

I know you are all busy but your comments on my amendments would be greatly appreciated (please use my BRE E mail address) by COP Friday 11 June.

Many thanks  
Brian
