Subject: Re: Fwd: Regulatory Reform (Fire Safety) Order House of Commons Report

The committee has made a number of interesting comments, including on safeguarding firefighter safety and the risks attaching to the abolition of local acts - that could impact on the Part 8 review.

I think it might be helpful if someone had a considered read and made a summary of relevant points / implications if any for Part B - so we were aware of the likely political fallout of various options if nothing else...

The Report of the Committee has been published today and has made a number of recommendations which we are now considering.

I have been asked by Andy to make particular reference to Paragraphs 89-105 and the recommendation made at Paragraph 104. These make particular reference to the national Framework/IRMP and colleagues working in those areas will wish to look at this section. Andy Jack will be in contact shortly to request assistance.

A weblink is attached below.

Regards
