Subject: Re: Fwd: Regulatory Reform (Fire Safety) Order House of Commons Report
Attachments: RRO - HOC.doc

psa. Not much for the Part B review other than the definition of place of "ultimate" safety but the issue of alteration notices may impact on the procedural Guide. Good to see they support the repeal of Local Acts.

The committee has made a number of interesting comments, including on safeguarding firefighter safety and the risks attaching to the abolition of local acts - that could impact on the Part B review.

I think it might be helpful if someone had a considered read and made a summary of relevant points / implications if any for Part B - so we were aware of the likely political fallout of various options if nothing else...

The Report of the Committee has been published today and has made a number of recommendations which we are now considering.

I have been asked by Andy to make particular reference to Paragraphs 89-105 and the recommendation made at Paragraph 104. These make particular reference to the national Framework/IRMP and colleagues working in those areas will wish to look at this section. Andy Jack will be in contact shortly to request assistance.

A weblink is attached below.

Regards
