This is a piece of perspex .

It looks like the original wired glass has been replaced with this material.

A piece of fire rated glazing should be inserted back into this vision panel .

Did you note the staircase doors when the cold smoke seals are coming out or are missing?

Carl

Carl

The photo attached shows the stair door on floor 6. Its some type of wired glass, but not traditional Georgian wired - do you know what it is and is it acceptable?

adrian
