Janice

Please see below about poor work at Grenfell to the fire doors.

Who would be doing this?

I don't think the doors should have smoke seals from what Carl has said previously.

Claire,

We have this morning found someone working on the 15 floor installing smoke seals to staircase doors.

The manner in which they are working is totally unacceptable, please see pictures attached.

The tools you see in the picture are plugged in and fire escape blocked, This presents a huge health and safety risk to the public, We were there for 10 minutes and there was nobody present to discuss this with.

As I'm sure you are aware the residents will automatically presume this is how Rydon work and will only add fuel to the fire.

I would suggest in the future that if you have works of this nature being carried out on the floors Rydon are informed.

Regards

Simon O'Connor, ACIOB, M InstLM  
Project Manager
