Thanks for this Janice

I would say you have nobody that this refers to because if you had you would have undertaken a PEEP s for them and implimented any findings which would have included additional fire safety measures .

If you identify anybody now questions like why.were they not included in the buildings FRA spring to mind

A good response I believe would be thank you for this information if we find anyone in the future we will let you know .

And I.will pass this on to the person oversees our list of persons who this maybe applicable too.

Carl

Subject: LFB sprinkler initiative

Importance: High Dear All,Apologies – this should have been sent out earlier.The LFB will be writing to all local authorities to outline the business case for the installation of automatic fire suppression systems (AFSS) in premises housing those most at risk from fire and its effects.As part of this communication, we would like to include a list of ten suitable premises within each borough which LFB consider would benefit from installation of AFSS due to risk factors of the inhabitants.Using the attached appendices I am to assist the LFB borough commanders for H&F and K&C with this identification process.Could I please request your assistance to identify suitable vulnerable persons in local authority premises.My current deadline is 20th December 2012.Thank you very much for your consideration of this matter.Regards,Nick Nick ComeryTeam LeaderHammersmith & Fulham and Kensington & Chelsea Fire Safety Regulation TeamLondon Fire BrigadeHammersmith & Fulham Community Fire Safety Centre190-192 Shepherds Bush RoadHammersmith W6 7NL T [REDACTED] extension [REDACTED]
