Subject: Consultation on development of national guidance on fire safety standards in existing residential accommodation
Importance: High

To all,

I'm pleased to inform you that the national guidance on fire safety standards in existing residential accommodation is being issued out for public consultation today. It will be mentioned in this week's housing specialist email to all our local authority and other stakeholder contacts. To obtain full details, please click on the link below:

Can I thank all of you that have already fed into the development process. Kevin Thompson has asked me to ensure you receive this document at the earliest opportunity. Where possible, it would be really helpful if you to try to facilitate a regional or sub-regional response to the consultation to avoid Kevin Thompson being completely inundated with responses when he returns to complete the project in 6 weeks time.

Many thanks.
