Dear Judith,

Please see extract copy of the email from the KCTMO dated 28th March 2018, just two months before the fire. It is my basic human right that to protect me and my family and residents and environment where I used to live and living as an ordinary human being NOT as an elected or selected elite in the society and it has been violated on many occasion specially on 14th June 2017. Despite what I had to go through on day to day basis in Grenfell Tower for many years. I was bullied and some of individual did it intentionally and knowingly failed to recognised my grave issues and concerns I used to raised and again I am entitled to be very upset under this unprecedented and horrific circumstances.

Until today "Who are punishing who" for the past decades in Grenfell tower and let's look at the evidences and re-invent the wheels if we can and our pain, suffering and agony are too great for some individual to comprehend or imagine.

I am not interested in truth because truth may various person to person but absolute "FACT" as to what was really going on in Grenfell Tower in the name of GTRP?

The basic issues are Grenfell wasn't regeneration BUT refurbishment.

"Gas mains Instillation and health & Safety at Grenfell Tower issues

RBKC and KCTMO are responsible for ensuring the health and safety of all the homes in the borough. I can assure you that the KCTMO take their health & safety responsibilities very seriously and are committed to complying with our statutory obligations and implementing effective control measures to mitigate"

I repeated before, that as a friend and local respected senior councillor I wanted to share my pain with you as I always did for many years, you were the main recipients of every emails I sent to vast array of the wider audiences in relation to Grenfell Tower for the past decades. But you instead put me wrong side of the stick in relation to Cllr. Robert Atkinson. I am entitled to express my feeling ONLY that Cllr. Robert Atkinson didn't recognised my suffering under very extreme circumstances when he was very quick write an email to suggest that to me that I have to give access to National Grid, when I made my position clear and known to him. See below 5:54 in the morning on Saturday dated 22nd April 2018. Cllr. Robert Atkinson may not know me but I know him very well and we met on many occasion at the EMB office and they may changed the name to TMO Latimer local office and didn't last long.

Year on, we are permanently traumatised for the rest of our lives and it's still fresh and raw in our day to day lives. You can imagine but can't feel it unless someone went through this in Grenfell Towering inferno . As a resident leaseholders in Grenfell Tower for over 25 years and as a founder and the chair of Grenfell Tower leaseholder association, I and my family had to ran for our lives on 14th June 2017 by this manmade disaster. I need an answer NOW. Year on we are still living in, so call temporary accommodation, someone has to explain to me right NOW not 30 years later because Grenfell Tower inquiry is ongoing, will continue as long as we live and hope is always tomorrow and may go on for another 30 years. We may not be around to find out the "FACT" in Grenfell Tower. The inquiry has nothing to do with my day to day lives. It is do with so call history and so call learning process and we never learned from history anyway but history MUST repeat itself that's how human operate and that's I see it and that's how we human being evolve or devolved. As you know that, the history is always written by the Victor definitely not people like me as a victim and as an uneducated immigrant living in a social housing in this country.

We failed to realise one becomes a doctor, politician and elected elite in the society ultimately to serve the fellow human being and we die one day BUT we should not die in such horrific circumstances in this society.

I wait to hear from you.

Best Wishes

Mr Ahmed

Dear Shah

I am more than willing to advocate on your behalf but it will really help if we meet to discuss your specific needs and concerns. I am appalled to hear that you have had no support from anyone.

I can meet you on Friday 15 June in the afternoon (I am away earlier that week and then engaged with Anniversary events) or any time on Saturday 15th or Sunday 17th or the morning of Monday 18th. Please let me know where and when you would like to meet.

Kind regards

Judith

Dear Judith,

I and my wife suffered most in Grenfell Tower for the past decades and bullied by the KCTMO and Ms Laura Johnson of RBKC. We were easy target by the local TMO Latimer office but nobody cared but no more. Luckily we survived and ran for our lives from this manmade unprecedented tragic fire that could and should have been avoided by the RBKC/KCTMO. They made us to ran for our lives and I don't give no one I mean no one that right. Nine months on I didn't get any support from nobody and we didn't go to hotel and list goes on. My pain is too big and that's why I didn't want to come back to Lancaster west anymore even though my son was born in Grenfell Tower and I and my wife lived in LWE for 25 years and my wife was born in Colville ward.

Despite all that I have given you utmost respect throughout without asking anything in return even very difficult movement in our lives.

Cllr Robert Atkinson may have done great things for the bereaved, survivor and residents of Grenfell Tower and for the resident of Lancaster west but as I said unfortunately no one came to my assistant or rescue so far and that's how I feel and it's a genuine feeling.

Please find forwarded email for your kind information I did only for you and even through I wasn't living in the borough.

Yes, I am also wholehearted with absolute determination involved with Grenfell Tower public inquiry and I have attended every hearing despite my ill health and I would like to play major role with my heart and soul and to seek the fact in every aspect in Grenfell Tower. I was bullied very badly by the KCTMO/RBKC.

I wait to hear from you.

Best Wishes

Shah
