Subject: referral for care package assessment

Good morning all,

I completed a housing needs OT assessment with Ms Lokko yesterday (fwi 1108430) Date of Birth

[REDACTED]

Address:

[REDACTED]

She is on our waiting list for re-housing because of her difficulties to access her accommodation and essential facilities within. She is a large lady suffering from arthritis, gout, hypertension, and severe depression. She is now finding it difficult to complete domestic tasks, and personal care tasks independently. I suggested for her to be assessed by social services to see if she meets criteria for assistance. She would be interested in direct payments.

She called me this morning and requested for me to contact you to make a referral.

Please, let me know if you require further information.

Her contact number is [REDACTED] Mine is below.

Kind regards

Rita Cavicchini
