Subject: Grenfell Tower

Hi

There is still a problem with the block intercom. Visitors ring the main block door intercom, and are let into the foyer by their friend/resident in Grenfell. The 'interim' lobby door at the ground floor foyer should open, I think for 16 secs at the same time as the main block door, so that visitors can enter the lift lobby.

However, yesterday it was not working again – flats 66 and [REDACTED] both said that this facility does not work for them, and flat [REDACTED] has to send her young daughter down to ensure visitors get in the block.

I know I have reported this before, and it seems only to relate to certain flats – so perhaps your sub-contractor could look at the pattern that is emerging.

Flat 66 is Mr Chebiouni [REDACTED]
[REDACTED]

Thanks

Claire Williams
