Dear Housing Department

Rabia Yahya DOB: [REDACTED]
[REDACTED]

You may be aware of this lady, who remains homeless following the destruction of her home in the Grenfell Tower fire. You may also be aware that she is about to deliver a baby and yet is living in extremely difficult circumstances in a hotel room. Rabia also suffered severe burns to her airways, which causes her difficulty in communication and breathing and given this combination of factors, I believe this is an extremely strong case in putting her to the top of the waiting list for new accommodation. Do not hesitate to contact me if you wish any further information such as further medical details on her state of health.

Yours sincerely,

Professor Martin A Birchall MD, FRCS
Professor of Laryngology
Consultant ENT Surgeon
