Subject: RE: Grenfell Tower - Dry Riser

Gents,

An update on Building Control contact. When have John Hoban (contact no. [REDACTED]) from RBKC assigned to Grenfell Project. He visited site week before last to introduce himself to Simon and have a quick look at the drawings.

Dave - I don't have any issue with you contacting John direct regarding the Dry Riser to enable you to move on. However I'd appreciate it if you can keep the DTM up to date with all contact and let us know if you an meetings are to be arranged so myself, Simon, Bruce or Neil can attend. I'll discuss this further on your behalf at tomorrows DTM.

Regards
 Simon

Thank you for the information Bruce. There doesn't appear to be any mention of the dry riser.

Bruce / Simon, Can we approach Paul and John at RBKC directly or is this something we need to wait for a formal meeting with everyone present? If so we need the meeting as soon as possible. Perhaps to coincide with next Tuesdays DTM?

Kind regards,

Dave Bradbury
 Senior Design Engineer

David,

We have previously had contact with Paul Hanson and John Allen at RBKC. We met with them last year and Peter returned the attached comments on New Year's Eve. I'm not clear if Daniel Hallissey has any role in Part B approvals.

I intended to forward this before I left on holiday. Apologies.

Regards

Bruce Sounes

Morning Bruce, I've been trying to call your office number but struggling to get through for some reason, could you call me when you can on the number below.

Simon has given me the contact for the fire officer, and I wish to speak with him about the dry riser however I just need to run it passed you before I make contact with Daniel Hallissey.

Kind regards,

Dave Bradbury
Senior Design Engineer
