Subject: Grenfell Tower AOV

When: 24 November 2014 09:00-10:30 (UTC) Dublin, Edinburgh, Lisbon, London.

Where: Grenfell Tower

Hi Paul,

Further to our telephone conversation regarding the proposed AOV system at Grenfell Tower. I'd like to meet with yourselves to present the proposed design, in order for us to incorporate any comments you have into the final design. This will then be submitted for approval.

The proposal is split into two phases, first phase: natural system, new dampers, new smoke detectors and controls. Second phase: fully mechanical ventilation system including pressure sensors and re-programming of installed controls installed in phase one. The reason we have split the system is to allow us to get some form of working system installed as soon as possible with the intention of getting the second phase done in line with the original construction programme.

I understand from our conversation there have been some comments from yourselves issued to the Architect on the revised layouts, we'll try and incorporate these comments into the design before our meeting.

Any questions please let me know.

Kind regards,

Dave Bradbury
Senior Design Engineer
