Subject: Grenfell AOV update
Attachments: Grenfell Tower Tech Sub Lobby Smoke Control Systems Rev 1.pdf

Simon,

Regarding the AOV update.

Attached is our specialists technical submission that details the intent for the new AOV system, as previous discussions and meetings, this report has been structured into two phases, first phase to install new dampers / actuators etc, second phase to install the fully automatic mechanical ventilation system.

This design has verbally been agreed in our meeting with building control but will require formal acceptance. I'll issue a copy of the technical submission to Max Fordham for comment and then submit for formal building control approval.

Dates of installation: once all manufacturers have confirmed delivery dates our specialist will provide us with key dates of installation, this will be issued as soon as received.

Kind regards,

Dave Bradbury
Design Manager
