15	The Regulatory Reform (Fire Safety) Order 2005	See footnote 10	Y
16	The term "design fire" is commonly used by fire safety engineers and not by fire and rescue services when referring to operations. Nevertheless, the meaning (i.e. a fire event of sufficiently high probability) applies both to the design of a fire safety strategy or operational protocols for firefighter response that are an integral part of such a strategy.
