Dear Ivor

Thank you for confirming your approval for the amendments Nadia will correct the sign mistake and get them issued.

In connection with the rainscreen draft, this is a proper reissue draft to update regulations and to add acoustic section (not an amendment) but does include the 90/90.

Please can you check with your technical if needed and advise as soon as possible if you are happy to issue it.

Thank you and kind regards
Gayetree

Gayetree,

With regards the previously circulated amendments for lambda I can confirm that these are all acceptable apart from the every minor issue about the 'less / more than and equal too'.

With regards this document can you confirm that this is only an amendment for lambda or are there other changes??

Thanks and regards

Hi Ivor

Please can you look into this one as well as the amended certs, I don't think we have received your approval back officially (I know you have explained to me the mistake about the sign).

Thank you
Gayetree

Dear Mr Mills

Ref: S2/47070
Certificate Title: *Kooltherm K15 Rainscreen Insulation Board*

Further to my email dated 5 November 2012, I note that we have not yet received your approval of the Draft Certificate.

We would like to maintain progress, therefore if we have not heard from you by 6 December 2012, we will assume you are happy with the content of the draft and will proceed towards circulation.

If you request revisions to be made after formal issue, this may cause delay and extra expense to you.

Full details of all current BBA Certificates can be found on our website, www.bbacerts.co.uk

Yours sincerely

Subject: S2/47070 Kooltherm K15 Rainscreen Insulation Board

Dear Mr Mills

Ref: S2/47070
Certificate Title: *Kooltherm K15 Rainscreen Insulation Board*

We attach for your approval, a draft of the proposed Certificate which is to be sent to the Regulatory Authorities and our Technical Assessors for comment.

The purpose of you seeing the draft now is to satisfy yourself that circulation would not result in confidential information being divulged to a third party. This is also your opportunity to comment and request revisions. Changes requested after this review stage will delay issue of the Certificate and may result in an additional charge being applied. Your response within one week would be appreciated.

This draft Certificate has been produced in Word to allow changes to be made easily by the BBA's technical staff. We attach a PDF of the Word document for your comments. Any required changes should be either listed by email or marked up on a printed copy of the draft and scanned back to me. Please be aware that this is your only opportunity to comment on technical content regarding this draft Certificate. Substantial technical comments received after this stage will incur a minimum charge of £450. Additional technical assessment not included in the initial contract will be subject to a 'Contract Variation' and charged according to the amount of work involved.

Full details of all current BBA Certificates can be found on our website, www.bbacerts.co.uk

Yours sincerely
