

SECTION F. PRICES

F1. Introduction

It is in your interest to read and consider the whole of this Offer Document (Sections A to G) before preparing your offer.

Please follow the instructions for submission of offers in Section B.

Please remember that you are being asked to quote for a 2 year arrangement with a possible extension for a third and fourth year, and not for a single project.

This Section F contains schedules for pricing and other items requiring responses from you. You must enter your responses where indicated.

For definitions of terms used in this Section see Section A.

F2. Instructions for pricing

F2.1 Prices shall be deemed to have taken into account the implications of all parts of this offer document.

F2.2 Please complete all the pricing matrices in this Section F.

F2.3 The appointed company may be required to include certain items of making good in connection with the installation of the bulk quotation component. Provision is made in the matrices for you to price typical items. Any other items of builder's work that you may be required to undertake would be the subject of prices quoted for individual contracts or negotiated and agreed with the Sponsoring Officer.

F2.4 The pricing matrices are for the purpose of evaluating the price aspect of the offers. The appointed company may subsequently be required to produce a more comprehensive price list on the basis of the matrix prices.

If prices for products and services not included in the matrices are required to be included in a price list, these prices will be discussed with the appointed company. Prices for some products and services not included in the pricing matrices may also be the subject of special quotations for individual projects. In both cases, it is a requirement of this bulk quotation arrangement that, when submitting quotations to participating bodies, the profit margin on these products and services would be comparable with that on the products and services priced in the matrices.

F2.5 Prices shall be based upon the successful tenderer being one of 3 appointed companies.

F2.6 Prices applicable to participating bodies' sites in the Greater London area should be entered at F4 to F12.

Adjustments to prices in respect of participating bodies' sites in other areas should be entered at G6.1.

F2.7 Prices may be required when appointed as a subcontractor and as a main contractor. Make no allowance for main contractors discount. This item will be added to the quotation price submitted by the appointed company when applicable.

F2.8 Prices shall be subject to variation for price fluctuations by the updating of prices as defined in clause E15 to become "fluctuations base prices" for use in preparing project quotations which will then be subject to fluctuations adjustments as defined in clause E16.

- F2.9 The Base Month to be used for the offer prices shall be **September 2007**. The Work Categories to be used for updating and fluctuations adjustments shall depend on the construction of the door leaf, as follows:

	Work Category Title	Category No.
Fibre reinforced thermoset (FRT) faced composite	Windows & Doors: Plastics	3/39
Steel faced composite	Windows & Doors: Steel	3/37
Wood based sheet faced composite, foam core	Windows & Doors: Softwood	3/35
Wood based sheet faced, solid wood core	Windows & Doors: Softwood	3/35
Traditional, framed in hardwood, with infill panels	Windows & Doors: Hardwood	3/36
Traditional, framed in softwood, with infill panels	Windows & Doors: Softwood	3/35

- F2.10 You are not required to give detailed firm prices, as defined in E17, in your offer. You must however give an undertaking that you will, during the bulk quotation period, when requested by project architects/contract administrators or contractors, give firm price project quotations for deliveries made or work carried out within stated periods. Firm price quotations under this arrangement will be based on the fluctuations base prices ruling at the time of the quotation plus a percentage.

The appointed company will be entitled to alter from time to time the firm price percentage addition, subject to negotiation with the Sponsoring Officer.

At F12.4 you are therefore requested to give the percentage additions you would require to convert your fluctuations base prices in this offer to firm prices for periods stated.

- F2.11 Prices shall include a consortium levy (see clause 8.06 of the Pre-Qualification Questionnaire) at the rate of 5% of the net invoiced value of goods and services provided under this bulk quotation arrangement.

- F2.12 Prices must allow for provision of technical advice to specifiers, visiting sites to assess extent of work, and issuing quotations for individual projects.

- F2.13 Prices shall allow for the cost of producing the LHC fact sheets to support this bulk quotation arrangement (see B10). These will be displayed as a webpage on the LHC website. The appointed company will be expected to pay for the graphic design and provide suitable photographic images. The cost will be £1800.

- F2.14 You should take careful note of Clause B11, relating to marketing initiatives undertaken by LHC. The estimated cost of these is likely to be around £1200 per annum. While you will be expected to support these activities, the assumption is that you should be prepared to finance these out of your normal marketing budget. However, you are at liberty to make an allowance for these costs in the prices quoted by you in this Section F, if you believe that your commercial edge would be maintained.

- F2.15 Prices shall allow for the costs of samples and testing (see C5 and Section D) and any variation necessary to meet the specification and technical requirements of this offer document.

- F2.16 Prices shall NOT include any allowance for Value Added Tax (see E18).

F3. Prices

F3.1 Prices generally

In the matrices in F4 and F5 enter your prices for the items offered by you in Section G, or state 'not applicable' or 'not offered' as appropriate. Should you wish to offer more than one range of door sets, copy the matrices as required.

Prices for 'supply and installation' will be taken as the sum of the prices for 'supply and delivery only' and the prices for 'installation'.

Prices in F4 and F5 shall be based upon contracts requiring door assemblies of any of the offered types installed in one continuous programme of work.

The opportunity to offer surcharges for small quantities and discounts for large quantities is provided in F10 and F11.

F3.1.2 Offer prices shall be net of all discounts. At the point of quotation the appointed company will allow for a 5% discount when acting as a supplier and will allow a 2.5% discount when acting as a sub-contractor.

At the end of the tables pages are a number of general items to be priced.

F3.1.3 Prices for components and assemblies not included in the pricing matrices (e.g. special fabrications, curved heads, etc) will be the subject of special quotations for individual projects. It is a requirement of this tender, that when submitting quotations to users, appointed companies will apply the same mark-up for overheads and profit for tendered items to all non-tendered items.

F3.1.4 On supply and fix contracts you may be required to undertake certain items of making good in connection with the fixing. Provision is made at F8 for you to price typical items likely to be required. Any other items of builder's work you may be required to undertake would be the subject of prices quoted for individual contracts or negotiated and agreed with the project Sponsoring Officer.

F3.2 Supply and deliver

F3.2.1 Matrix prices for supply and deliver of doorsets **shall include for -**

- initial site survey or taking off from drawings etc for quotation purposes
- protective wrapping
- hardware, as indicated
- any necessary glazing systems, gaskets and weatherstrips
- delivery to site

F3.2.2 Matrix prices for supply and deliver of doorsets **shall not include for -**

- manufacturing survey (see F6)
- fixings or mastics
- unloading or storage
- fixing hardware delivered loose
- discount for cash (see F3.1.2)

F3.3 Fixing prices (main contractor or sub-contractor)

F3.3.1 Matrix prices for fixing doorsets shall include for -

- initial site survey for quotation purposes
- adequate site supervision
- unloading and distribution up to 150 metres
- moving and protecting furniture to prevent damage
- protecting floor coverings within a property to prevent damage
- placing in position and fixing of new door units including coupling members, hardware supplied loose and all necessary standard fixings
- provision and application of mastic sealant internally and externally
- cleaning up of work area
- final adjustment of doorsets

F3.3.2 Matrix prices for fixing doorsets shall not include for -

- manufacturing survey (see clause F6)
- moving furniture or equipment out of a room
- removal and disposal of existing doorsets (see clause F7.2)
- making good internally or externally (see clause F8)
- out of hours or restricted working
- project management
- tenant liaison personnel
- discount for cash (see F3.1.2)

F3.4 Preliminaries

Appointed companies or their installers may be asked to act as a main contractor, or on a direct contract with the employer, rather than as a sub-contractor. In F9 you are therefore asked to state the percentage for overheads and profit which you would add, in these circumstances, to the net invoiced value of each of a number of items of general preliminaries. The percentages offered would remain fixed for the duration of the LHC bulk quotation arrangement.

Note that users of the LHC bulk quotation arrangement will be at liberty to nominate a supplier for each preliminary item and to seek proof of prices before an order is placed. Alternatively they may require the appointed company to obtain competitive quotations.

F4. Prices for Doorsets with composite leaf construction (as G5.10)

Including frame as specified under G5.4/5, and with mobility threshold but without sidelights or fanlights, with door-leaf of composite construction, as G5.10, hung on standard hinges as C16.4, with cylinder to C16.3, levers to C16.2 and multi-point lock, all certified to comply with PAS 24-1;

Prices are required for two door leaf sizes, as follows:

- Nominal size of leaf 2040 mm x 813 mm.
- Width conforming to Approved Document M of the Building Regulations for wheelchair access.

Item	Price for supply and delivery only	
	2040 x 813 £	Wheelchair £
Door, six "panels" without glazing in leaf, type 'A' (as C10.1)	MF08	
Door with semi-circular glazed area, type 'D' near top of leaf	MF12	
Door with two small glazed panels, type 'B' near top of leaf	MF15	
Door including "four-panel" leaf with the upper two panels glazed, type 'C'	MF03	
Door half glazed, type 'F'	MF03	
Door, solid without "panels" as type 'E'	MFx	
Door as type 'F' but with "glazing bars" and shown as type 'G'	MF05	
Additional hardware items to the above:		
Letter plate as C16.5	£9 - 00	
Door viewer and chain as C16.6	Viewer Chain	£2 - 07 £2 - 62
Overhead door closer as G....	SEAcuretech	£31 - 30

State the rates offered, and basis for building up prices, for the supply only of sidelights and fanlights as G5.3, incorporated in any of the above door assemblies, including glass as G5.1.1.

We have enclosed a style sheet and have marked in the above matrix the corresponding style from the range we offer. We have also enclosed a comprehensive matrix showing all the door sets offered and their prices set against the relative styles.
We have also enclosed price lists for supply only of sidelights and fanlights in either (i) pvcu or (ii) in aluminium faced in hardwood or pvcu or a combination of both.
Prices include the LHC levy and allowance for discount per F3.1.2
There is no difference in price for standard or wheelchair thresholds.

State the additional costs of installation per door set £107 - 00 net.

F5.

Prices for Doorsets with composite leaf construction to achieve FD30 rating

Including frame as specified under G5.4/5, and with mobility threshold but without sidelights or fanlights, with door-leaf of composite construction, as G5.10, hung on standard hinges as C16.4, with cylinder to C16.3, levers to C16.2 and multi-point lock, all certified to comply with PAS 24-1;

Prices are required for two door leaf sizes, as follows:

- Nominal size of leaf 2040 mm x 813 mm.
- Width conforming to Approved Document M of the Building Regulations for wheelchair access.

Item	Price for supply and delivery only	
	2040 x 813 £	Wheelchair £
Door, six "panels" without glazing in leaf, type 'A' (as C10.1)	MF08	
Door with semi-circular glazed area, type 'D' near top of leaf	MF12	
Door with two small glazed panels, type 'B' near top of leaf	MF11	
Door including "four-panel" leaf with the upper two panels glazed, type 'C'	MF15	
Door half glazed, type 'F'	MF03	
Door, solid without "panels" as type 'E'	MFX	
Door as type 'F' but with "glazing bars" and shown as type 'G'	MF05	
Additional hardware items to the above:		
Letter plate as C16.5	£9 - 00	
Door viewer and chain as C16.6	£2 - 07 £2 - 62	
Overhead door closer as G....	£31 - 30	

State the rates offered, and basis for building up prices, for the supply only of sidelights and fanlights as G5.3, incorporated in any of the above door assemblies, including glass as G5.1.1.

We have enclosed a style sheet and have marked in the above matrix the corresponding style from the range we offer. We have also enclosed a comprehensive matrix showing all the door sets offered and their prices set against the relative styles.

The prices for supply only of sidelights and fanlights in aluminium faced in hardwood with intumescent seals are the same as for non-fire rated. However, they will be single glazed with Georgian wired safety glass,

Prices include the LHC levy and allowance for discount per F3.1.2.

There is no difference in price for standard or wheelchair thresholds.

State the additional costs of installation per door set

£137 - 00 net.

			£
F6.	Prices for manufacturing survey		
	Price per doorset for site survey for manufacturing purposes:		6.00
F7.	Prices for items associated with installation		
F7.1	Storage of door assemblies prior to installation		
	Price for delivery and collection of storage container	each	Included
F7.2	Removal and disposal of existing door assemblies		
	Price per door assembly for removal and disposal of:		
	Single leaf door assembly without sidelights or fanlights	each	23.00
	Single leaf door assembly including sidelights and/or fanlights	each	31.00
F8.	Making good		
	Prices for the following items of making good:		
			Price per metre
			£
	Two coat external render to reveal		
	- not exceeding 50 mm width		9.00
			per linear metre ('pl.m')
	- not exceeding 100 mm width		18.00 plm
	Two coat pebbledash external render to reveal		
	- not exceeding 50 mm width		12.00 plm
	- not exceeding 100 mm width		24.00 plm
	Two coat internal plaster		
	- not exceeding 50 mm width		6.00 plm
	- not exceeding 100 mm width		12.00 plm
	Quadrant bead, internally or externally		
	- small		Included in fitting fee

	PVC-U cover strip, internally		
	- less than 25 mm		Included in fitting fee
	- 25 mm to 50 mm		ditto
	- 50 mm to 100 mm		3.00 per metre
F9.	Percentages for overheads and profit on preliminary items (see F3.4)		
	Item		Percentage
	Security		20%
	Offices		20%
	Mess room, sanitary accommodation and welfare facilities		20%
	Temporary fences, hoardings and screens		20%
	Power, lighting, fuels and water		20%
	Provision of point of contact for occupants of the properties		20%
	Notifying occupants of intention to install		Included in fitting fee

Item	Percentage
Storage of materials other than door assemblies	20%
Disposal of rubbish other than windows and doors	20%
Hoists	20%
Access scaffolding, lifting and loading platforms	20%
Attendance on specialist sub-contractors for:	
- asbestos removal	20%
- concrete repairs	20%
- brickwork	20%
- electrical work	20%
- painting	20%
- plumbing	20%

F10. Small quantities

State here any surcharges for small quantities that would apply to your offer prices. Give descriptions as necessary and state the limits of quantity or value to which the surcharges would be applied.

1 – 19 door sets subject to an additional charge of 2.5%

F11. Large quantities

State here any discounts for large quantities that would apply to your offer prices. Give descriptions as necessary and state the limits of quantity or value to which the discounts would be applied.

200 plus door sets subject to a discount of 2.5%

F12. Firm price project quotations

Please answer the following questions regarding firm price project quotations (see E17 and F2.10):

F12.1 If appointed, do you undertake to give firm price project quotations for projects if and when requested by participating bodies or contractors during the bulk quotation period?

YES

☒

NO

☐

F12.2 State here the percentage addition to your offered fluctuations base prices to make these firm for the following periods:

Firm prices for a 6 months period

Fluctuations base prices plus

Nil %

Firm prices for a 12 months period

Fluctuations base prices plus

Nil %
