All, Paul from building control can make it next Wednesday at 9am to discuss the AOV system, I'll send a separate meeting request to all which will include Paul. Any problems please let me know.

Dear All,

Further to our discussions regarding the AOV system yesterday. Can we reserve a timeslot for the 25th November at 11am to discuss the final design.

In the meantime I'll make contact with building control, with a view of getting them to come to the meeting as well so we can gain their approval to quickly move forward with the install.

Matt / Simon, we'll issue the proposed layouts and tech subs for the AOV before this meeting.

Any questions please let me know.  
Regards,  
Dave.
