This statement is about my role as a Software Developer for Masterdor Ltd.

This is a further statement as I have already provided details to assist police.

I began working for Manse Windows in March 1996 as the IT Manager. Manse Windows became Manse Masterdor when LB Plastics bought the company and continued as Manse Masterdor from 2002-2014 until it was bought by Synseal and became Masterdor Ltd. Since becoming Masterdor Ltd my role title changed from IT Manager to Software Developer.

As a Software developer my day to day role is generally production programme writing which entails creating user front ends to input/access for the day to day running of the factory floor and sales order processing. I also assist with minor IT on site issues however Synseal have there own IT department which will deal with any major or long term IT issues. I have very little technical knowledge on the production and process of the manufacturing process of products. The knowledge I do have is through the years of working in the company and their working practises's. I exhibit poster of door label as SGL/2 which details my understanding of the product code e g 1112375-06 which relates as the first two digits as being the year (2011), the second two digits as the week (12) and the other numbers make up unique door references. I have also been asked numerous questions relating to Manse Masterdor, Masterdor Ltd and Grenfell Tower which I have answered to the best of my ability and exhibit the document as SGL/3.

Within the questions there are specific question in relation to the glazing and I have produced a USB stick containing downloads relating to the full details of glazing requirements for doors produced by Manse Masterdor and the supplier part numbers which uniquely identify the type of glass used. The USB is exhibit as SGL/4, sealed in MPS evidence bag B24970137. I have also produced a USB stick as exhibit SGL/5 in relation to all recorded complaints against Manse Masterdor which is sealed in MPS evidence bag A22629171.

Further to this statement I have been requested to download job card data in pdf format for Grenfell Tower which will include all the manufacturing information, one page per door for all the doors manufactured for Grenfell Tower. I exhibit this information on a USB stick as exhibit SGL/6 sealed in MPS evidence bag B24970138
