Dear Cllr Blakeman,

Thank you for forwarding me this response from the Council.

We do not believe that the Community Rooms reach an acceptable standard for children or infants despite what the Council say and we shall be blogging on the subject shortly.

The one question not answered in your email is why the TMO felt able to take over the Community Rooms without consultation of residents and without providing us with an alternative venue to hold meetings?

We now have nowhere to meet during the daytime and this will prove to be a problem as we are due to meet with our MP in the community rooms in mid-October.

Please can you ask the TMO why they have forced residents out of our only meeting place on Lancaster West and ensure that the TMO have followed proper procedure in denying us a "right to commune" within our Estate.

I wish this matter to be raised as an official complaint against the TMO and request that the conduct of the TMO with regards the removal of our community rooms be investigated.

Kind regards,

Edward Daffarn
