**Importance:** High

Dear Mr. Maddison and Ms. Johnson

I attach a copy of the letter that I intend to send in response to the round robin I have received. This came from the following residents:

Behailu Kebede, 15 Grenfell Tower, Grenfell Road, London W11 1TG  
Antonio Roncolato, 72 Grenfell Tower, Grenfell Road, London W11 1TG  
Edward Daffarn, 134 Grenfell Tower, Grenfell Road, London W11 1TG  
David Collins, 185 Grenfell Tower, Grenfell Road, London W11 1TG

I would be grateful for any comments that both of you may have on this matter.

I would also like to send each of them a copy of the TMO Complaints Procedure leaflet, but unfortunately it cannot be copied as a pdf from the TMO website. I would therefore be grateful for an electronic copy of the document.

Many thanks.

Cllr. Judith Blakeman

Dear Mr. Maddison

I have received this round robin from four residents of Grenfell Tower. One matter that they seem to be alleging is that the heat interchange unit now being installed in the Tower is different from the heat interchange unit originally proposed. Is this correct?

As far as the letter goes, I am going to suggest that each resident (which includes Mr. Daffarn) utilises the formal TMO complaints procedure – since it would clearly be unlawful for the TMO to install a “dangerous” unit.

I would be grateful for an early reply.

Kind regards.

Cllr. Judith Blakeman
