Dear David

As you can see from the attached extract from the Grenfell Action Group blog, my written report to the CLP of June 2015 on the CLP website has been misused. Mr. Daffarn has gone on unnecessarily to misinterpret this report to cause significant concern amongst many residents on the Lancaster West and Silchester Estates and to stir up anti-Labour feeling.

This seriously undermines the work of ward councillors and for this reason the Notting Dale councillors will not be providing any further written reports for the CLP. I am very surprised that our reports and CLP business are open to all members of the public to read on the CLP website.

Judith
