I have agreed with Peter Maddison to hold the meeting with the Grenfell Tower residents in the Show Flat at 145 Grenfell Tower, so that he can explain and show in the finest detail how the finished new boiler installations are going to look. I think both Robert and I ought to be there, at least at the start of the meeting at Grenfell Tower, which means someone needs to be at the Leisure Centre for 10 am in case other people come.

Just wondering whether Beini or maybe Mushtaq could open up the surgery at the Leisure Centre and we will come along as soon as we have finished at Grenfell Tower, maybe Robert can leave once the meeting has started and people have calmed down. Sadly Mr. Maddison has also asked that we invite Mr. Daffarn (although he probably won't come as he would then be confused with the actual facts).

ROBERT I have suggested a start time of 10.15 at Grenfell Tower to give you time to get there on time!

To look.
