Subject: KD04127PROPOSED - Grenfell Tower Planning Application-Permission to enter into a Unilateral Undertaking

Dear Rock

I have seen this proposed Key Decision, although not sure why it was not also sent to the ward councillors. We have had tortuous meetings around this project that have not been very pleasant - ether for the TMO officers or the ward councillors - owing to the delay that the need for this Undertaking has created.

I am very content with the proposed KD, with the one caveat that surely the wheelchair-accessible flat ought not to be permit free? Presumably the tenant of this flat will need a parking permit for transport to get to and from anywhere, rather than be confined entirely to his or her home?

Kind regards.

Judith
