Subject: Grenfell Tower

Dear Ms. Johnson

I am wondering whether it is possible for the Council to produce a small leaflet or formal letter for the residents of Grenfell Tower?

We believe this is necessary as a matter of some urgency because of a lot of misinformation is circulating – you are probably aware of its source. The residents of the Tower now believe that the proposed improvements for Grenfell Tower have been dropped. Furthermore, they are now also being told that the Council has no plans to replace the Grenfell Tower children's playground.

We have put out a leaflet as the local Labour councillors to refute as much of the misinformation currently being promoted as possible – but as you will no doubt be aware, we are being branded now as “spinners” of the truth.

It would be really helpful if the Council can put something out to re-assure the residents of the Tower that the improvements have been delayed but are still very much within the programme, that leaseholders will not be charged for them and that the outdoor children's playground will be restored as part of the KALC programme.

I have been asked to put this suggestion to you by a couple of the residents of Grenfell Tower.

Many thanks.

Cllr. Judith Blakeman
