Dear Recipient,

Re: Outcome of investigation into the power surges in May-June 2013

I would like to advise that all repair works to the electrical system have now been completed and we have received the final outcome of the insurance investigation into the power surges at Grenfell Tower.

The TMO instructed their insurers,  to assess any submitted claims for compensation relating to damaged electrical appliances. Following their investigations  found that the TMO had valid electrical certificates in place which had been carried out in accordance with statutory requirements.  also concluded that the TMO acted appropriately when the power surges were identified, working closely with UK Power Networks and the TMO's electrical contractors to resolve any issues.

For these reasons  has found that the TMO has not been negligent in regards to this incident. They have therefore declined to provide compensation with regards to any resident claims.

The TMO does recognise that although this issue was unforeseeable and actions were put in place to rectify electrical faults, you may have experienced some inconvenience. For this reason, the TMO is offering a goodwill payment of £200 per affected household. This offer is not an admission of liability and is made without prejudice.

To accept the TMO's offer please complete the attached response form and return it in the pre-paid envelope provided. On receipt of your acceptance, we will instruct our finance department to send you a cheque for £200 within 28 days.

If you have any queries regarding the TMO's goodwill offer or would like to meet to discuss these issues, please contact Siobhan Rumble, Neighbourhood Manager Lancaster West on [REDACTED]

Yours sincerely,
