27 January; but then the scrutiny – if agreed – would not be until 9 March at the earliest when I think much of the momentum will be over. If the petition goes to the December meeting the scrutiny could be on 9 January. We do not need signatures from every flat – just as many as possible and preferably a lot from those whom the TMO do not view as “the usual suspects”. We can help collect the signatures.

Let me have a think about the words too.

If we didn't make the 2nd December meeting, when is the next?

David

Dead David

This is my first draft of the suggested petition. Please let me have any comment soonest as in order to present it at the 2 December Council meeting we need to get as many signatures on it as possible in a short period of time.

Kind regards.

Judith

We the under-signed residents of Grenfell Tower ask the Chairman of the Housing and Property Scrutiny Committee to undertake an urgent scrutiny of the TMO and Rydon's management of the refurbishment project currently underway at Grenfell Tower. Time and again residents' views have been ignored or down played. Despite interventions from our MP Victoria Borwick and our ward

councillors, our day-to-day concerns are belittled and sidelined. We understand that the Council will shortly be commencing a major programme of regeneration throughout the borough and that this may involve refurbishment rather than demolition of some other tower blocks. In view of this, it is vital that all the lessons from the Grenfell Tower project are learned, so that the terrible daily living conditions inflicted upon us for so long are not replicated elsewhere. As a part of this investigation, the residents of Grenfell Tower ask that their views and experiences be canvassed and included in the scrutiny report.
