Subject: Re: Final reports on power surges at GT in May

Dear Tunde

All I can say about the "steam" issue is that when I raised the problem of smoke coming from appliances, I was told that there had been one incidence of what appeared to be smoke but was in fact steam generated by a leak of water from the flat above dropping on to a hot surface in the flat beneath and generating steam. That is all the information I have about this statement. It sounded odd to me too.

Kind regards.

Judith

Dear Cllr Judith Blakeman,

Thank you for your reply

We hope and pray for your speedy recovery from the summer bug and feel well soon.

As you said the instead of providing final report on Power surges the council is preparing its response to our petition and will be available very soon. You also expressed your concerns as our ward and local councillor that this response may not find the answers all satisfactory. If that the case, we believe you ought to prepare yourself to seek satisfactory answer to our petition and do you have any alternative advice for the residents of Grenfell Tower?

We have access to your notes you took at the scrutiny committee meeting on 16th July 2013, We shall be very grateful to you if you could elaborate further in details on we quote **"There was no smoke, it was in fact steam caused by water from a leak dropped on to something hot in the flat below"** we are completely and utterly lost on the note.

Please let us know

Best Wishes

Tunde Awoderu

Vice Chairman

The Grenfell Tower Leaseholder's Association

Dear Tunde

At the moment the Council is preparing its response to your petition, which will be available very soon. It does seek to address most of your questions - although you may not find the answers all satisfactory.

I apologise for not letting you have my notes of our meeting, unfortunately I was laid up for most of last week with a nasty summer bug - now thankfully gone.

Kind regards.

Judith

Subject: Final reports on power surges at GT in May

Dear Cllr. Judith Blakeman,

It has been quite some time now since we received only briefing from KCTMO on behalf of RBKC in relation to the catastrophic power surges during May 2013.

We the residents of Grenfell Tower request you as our ward cllr. to seek full and comprehensive report in relation to the power surges without further delay before we take it further.

Best Wishes

Tunde Awoderu

The vice Chairman

The Grenfell Tower Leaseholder's Association

The Royal Borough of Kensington and Chelsea.
