Dear Cllr Blakeman

I consider these issues to be between the TMO and the residents and they don't really have any weight in the determination of this case.

Regards

Edward

Dear Mr. George

I very much hope that these objections will not be treated seriously and that they will not hold up the planing approval in any way. It is absolute nonsense to say that residents were not properly consulted. There were a number of meetings and drop in opportunities.

I am sure Mr. Maddison can give the Council chapter and verse of all the opportunities that Grenfell Tower residents had to have their say.

Kind regards.

Cllr. Judith Blakeman

As I said in my previous email I am unable to provide you with copies of the objections. The objections have been made on the following grounds:

Objection to the fact that residents have not been more fully involved in the issue of the removal of the GT canopy and the need to permanently lock up our windows if the canopy is removed.

Objection that the residents of Grenfell Tower have not been allowed more of a say in the type of windows that will be installed.

Yes please - are you able to send me electronic copies of the two objections?

There have been two objections to the application. However these are not available to view on the website, and would only made available when committee papers were published or following the decision. I can brief you on the content of the objections if that would be of help?

Dear Mr. george

Thank you.

I generally have difficulty accessing planning information via the Borough's website. Can you therefore please let me know whether there have been any comments or objections to the current planning application for the Grenfell Tower refurbishment and, if so, can you let me have the link to where I can find them on the website?

Many thanks.
