Given the change in the situation, maybe we should revise the letter that we send out to residents of Grenfell Tower and not bother with the one I asked poor Deborah to produce yesterday!

Subject to your agreement, I shall wait to see the letter the TMO send out and then we can send a letter pointing out how we and the residents jointly won the day. Personally I think David Collins has a lot to be thanked for, by taking the initiative away from Mr. Daffarn. Had Edward remained in charge of matters, I suspect we would still be in stalemate.
