Oh dear, what a cess-pit, and so much political manipulation, with [REDACTED] in the mix, yuck.

Having almost caught up with my casework at last, I'm finally focussing on trying to get Pepler House listed. I just need some interior photos to show how loved and cared for the building is, then I will send it off. In theory it could be up for spot-listing, as it's up for demolition.

In the meantime my Wornington blogs have attracted 450 visits, probably from Catalyst lawyers, so I'm awaiting my 'cease and desist' letter with baited breath. While I've been v v careful recently, there may be some earlier blogs they will find something to object to - though I have gone over them recently.

Frankly they should be focussing on fixing the atrocious build quality. It shouldn't take a critical blog to achieve that. Ed George is coming next week to look around.

After the farce of the attempt to wind down the EMB a few years ago, Bryans re-gained control of it as Chair [REDACTED]. The new EMB, which was effectively the old EMB with a few new friends of theirs, also elected a vice-chair called Gordon Evans who promised to set up a website for the EMB. [REDACTED]

He is also named in Francis's blog – he was and is the chair of the Lancaster West EMB and a local Tory.

Maybe send to H for information – but just the bit about Arvinda as follows:

"Arvinda Gohil took on a bona fide job as a consultant, properly agreed with the rump of the Estate Management Board. There was no conflict of interest, the Board was fully aware that she was paid as a consultant, she worked really hard to get the EMB back on course and having failed through no fault of her own, the EMB agreed to propose to wind itself up at an extra-ordinary meeting. This meeting was packed by a large group of people, most of whom did not live on the estate and so the Council gave up at that point. Ms. Gohil is a respected housing professional who has done nothing wrong. Whoever informed Mr. O'Connor of her history with the EMB has given him seriously misleading information and it is most unfortunate that he has posted this on the Grenfell Action Group website."

I really don't want to get embroiled in this particular problem. I have advised Mr. O'Connor as far as I am able, given that I am not legally qualified, so my conscience is clear if the Council decides to take action against him.
