Dear resident

DROP IN SESSION – SEE THE PROPOSED CENTRAL HEATING LAYOUT

Further to various consultations, we now have a mock-up of the proposed heating system.
This is your chance to see:

- Pipe runs and radiator locations
- Heat interchange unit (instead of E'son in kitchen cupboard)
- How the system will operate

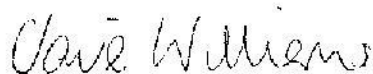

We also want to talk to residents about heating charge options.

The mock-up is in flat 145 and will be available:
Thursday 12 December 10am – 12 noon
 4pm – 7pm

We are asking everyone to come and see this mock-up so you can understand what the system comprises. The detailed design will be worked up at a later stage when the contractor is on board, but this will give you a good indication of the layout.

If you are not available at these times, please let me know by contacting me at the above, and we will look to arrange alternative dates in early January 2014.

Yours faithfully

Claire Williams
Project Manager
