Subject: RE: Grenfell AOV Ductwork

Hi David,

I confirm that David's drawings is dimensionally correct and the section of fire rated ductwork has been identified as only the walkway duct.

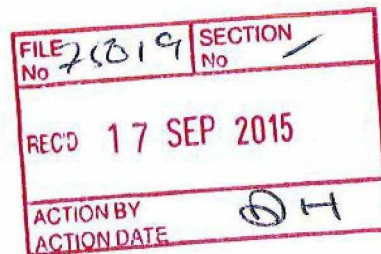

Sorry I should have got back to you sooner.

Regards

Hugh Mahoney

Subject: Grenfell AOV Ductwork
Importance: High

Hugh, can you have a look at the attached and check its correct please. from our conversation earlier I understand it's only the ductwork on the walkway which needs to be fire rated and the roof duct is only a standard / 'enhanced' DW144 duct. Would you be able to confirm to Dave Peacock for me please.

I'm away next week but will check my emails as and when I can. Thanks.

Dave, please note the attached is an out of date drawing but the AOV ductwork is correct as we reverted back to separate ducts for smoke and environmental. I'll revise on my return but the attached should be enough to get a price on. Any problems please let me know.

Kind regards,

Dave Bradbury
