Subject: Community Investment funding

Dear Rob,

Further to our meeting in October regarding the Community Investment Fund, the Community Safety Commissioning Group met last week to consider the set up and arrangements for this project.

Following an in-depth discussion, it was felt that the set up and administration of the scheme is best held with Adult Social Care (ASC) as they work directly with the client group and they are better positioned to manage the scheme.

In this case, the group agreed that ASC should have the £10k funding from the Brigade and order the goods accordingly. The Community Safety Partnership will still match fund the scheme where necessary.

I am happy to discuss this with you in more detail.

I look forward to hearing from you.

Kind regards

Lorna
