Summary and Eligibility (*)

Assessor's summary

Mrs Khalloufi is the main carer for her husband Mr Abdullah. She informed me that she doe not have any support systems in the UK.
It is important Mrs Khalloufi feels supported in carer role and receives support e.g. support to avoid becoming burnt out.

Mrs Khalloufi feels receiving some respite will assist her in continuing in her caring role. She said that this is only possible when she visits family and friends in [REDACTED] as they help her care for her husband and this then gives her time to relax and rejuvenate. She said that a break like this will have positive effects on her both physically and mentally. She provides for all her husbands support needs and she has nobody to rely on for support for this. [REDACTED]

Support Needs

Eligibility Outcome	Ability	Evidence	Significan Eligible Need

Eligibility Outcome	Ability	Evidence	Significan Eligible Need

Is the carer's physical health deteriorating (or at risk of doing so), as a result of their caring role AND this has a significant impact on their well-being?

Yes

Is the carer's mental health deteriorating (or at risk of doing so), as a result of their caring role AND this has a significant impact on their well-being?

Yes

Eligible for Adult Social Care Support?

Carer has one or more Eligible Needs OR their physical or mental health IS (or is at risk of) deteriorating as a result of caring role and this is significantly impacting their wellbeing

Is the Carer Eligible?

Yes

State reason/s why

Mrs Khalloufi is the sole carer for Mr Khalloufi. They have identified there are no other supports living in the UK.
It is important Mrs Khalloufi feels supported in carer role and receives support such as respite so she doe not get burnt out and become unwell herself.

IF THE CARER IS ELIGIBLE AND IS NOT DECLINING SUPPORT, YOU MUST COMPLETE THE SUPPORT PLAN SECTION

Where the local authority has identified that the carer has needs but determined that these needs are not eligible, it must provide information and advice on what support might be available in the wider community, or what preventative measures might be taken to prevent or delay deterioration. This should be confirmed in writing.
