**Categories:** Grenfell

Simon

I am just writing to get clarification on the fire retardance of the new cladding – I just had a 'Lacknall' moment.

Compliance standard: The Centre for Window and Cladding Technology (CWCT)  
'Standard for systemised building envelopes'.

Comply with the recommendations of GRCA publications  
'Specification for the manufacture, curing and testing of GRC products' and 'Guide to fixings for glass fibre reinforced concrete cladding'.

Structural and fire requirements:

- Generally: As section B50.
- Modifications: None.
- Design: Complete the design in accordance with the designated code of practice to satisfy specified performance criteria.

Claire Williams  
Project Manager
