Subject: RE: Grenfield Towers - Window surrounds

Morning Kathy,

Further to Johns email yesterday I would comment as follows;

I would expect your operatives to take 2-3days on the first few plots, however once they get going 2days to complete a flat should be sufficient time.

Based on my previous workings out can we agree to the following;

2bed – 80no @ 2men x 2days (£480.00) + materials (£287) = £767.00 x 80 = £61,360.00
1bed – 40no @ 2men x 2days (£480.00) + materials (£246) = £726.00 x 40 = £29,040.00

Therefore taking all the above into account the contract would stand at £90,400.00

Please confirm your acceptance by return or alternately please call me on [REDACTED] to discuss.

Regards,

Adam

Adam

on a two bedroom flat our installers are saying it would be 2 to 3 days, and the sample window has been fitted with insulation board and it has been pointed out that the carpenters had put 4 x 2 frames around each windows. We cannot improve on our price between £95,000 to £110,000 as the labour costs are far too high.

Regards

John Davies

Hi Kathy,

Providing we can have the window surrounds fitted Tuesday, how quickly can we agree a firm price and also agree a start date as we initially programmed these works to start next week and I don't want to fall behind on programme.

Regards,

Adam

Morning Kathy,

I tried to make contact with you this morning but your colleague advised you were with a customer.

Are you any further in producing a firm quotation based on my email sent across on Wednesday.

If you could get back to me today it would be very much appreciated.

Regards,

Adam

Hi Kathy

Could you base your price on the following:

80 no. 2 Bed Flats (7 no. windows) @ £ xxxxx per flat
40 no. 1 Bed Flats (6 no windows) @ £ xxxxx per flat

For your information, our initial budgets were based on the following so we need to try and get as close to these figures as possible:

80 no. 2 Bed Flats (7 no. windows) @ £ 530 per flat
40 no. 1 Bed Flats (6 no windows) @ £ 480 per flat

We are expecting 2 men to do a flat in a day

Works to commence 6th April and be complete by 21st August 2015

Please could you re-look over your figures and get your best price over to us by close of play today

We appreciate your quick response on this

Regards,

Adam
