Subject: price for window surrounds
Attachments: SDP front sheet quote md 6-5-15.xlsx

Dear all please find attached the quotation for carrying out the window surrounds at Grenfell, can I ask you to check the numbers as I am unsure about the three bed units as we have never been in one and the drawings are not clear. Adam I know this is nowhere near your allowance but I have looked at this for a few hours now and believe that even our cost might be tight, the team I was hoping to use wants considerably more money than I have allowed due to the risk element so I have built a team using mostly employees to tackle this which gives me more flexibility if we have access issues on site.

We have not carried out a sample boxing as yet as I have focused on this item first, we will do this if we are engaged to carry out these works.

We are unable to commit a team until 18-5-15 and we will be looking to complete a floor a week, once we have established a sequence we may be able to increase the team size to accelerate the programme but we need to secure the strategy first before we push on.
