Subject: RE: Grenfell Tower Kitchen Window Fan

Hi Dave

Colour for the components sitting on the external façade to be RAL7012 Basalt Grey 30% gloss to match external cladding (internally to be white).

Regards
Neil

Thanks Matt.

Neil, please email below and attachments regarding the kitchen extract fans, can you let me have any comments please.

Rich, I've just got your message confirming Rydons have said the fascia board thickness does not exceed 32mm. thanks.

Kind regards,

Dave Bradbury

Afternoon Dave

The only comment from me would be to ensure that Studio E have been kept in the loop regarding colour/integration with the facade system.

Kind regards,

Matt

Subject: Grenfell Tower Kitchen Window Fan

Simon / Matt,

We are about to order the attached fans for the kitchens. Can you let me have any comments by this afternoon if possible before we place the order.

Please see email below also confirming suitability for fascia of 25mm and for high rise apartments.

Simon, I asked about the colour and it comes as standard in white and they don't offer the facility to get them coloured for us. However the louvre is separate (as part of the window mounting kit) so they can be sent off separately for colouring.

Kind regards,

Dave Bradbury

Subject: Quote: Grenfell Tower

Hi David,

Please find attached, as discussed, the quotation required for **Grenfell Tower**.

I can confirm that the *CYFAN* unit is suitable for being mounted in the required fascia of 25mm (designed for 4mm - 32mm thickness). As there are spring loaded backdraught shutters supplied with the unit we can confirm that the unit is suitable for installation into high rise apartments as required.

I have attached the data sheets for your perusal. If you need anything further, please do not hesitate to contact me on the number below.

Kind regards,
