**Attachments:** 150717 Lower Levels Plank Details\_SE comments.pdf

Hi Kevin

Please find attached comments on the plank drawings. Main observations are;

- Alu column panel should be same size as above on 212 , this is a hangover from previous revision comments and we clarified on following phone call
- End jamb plank details as they about column would be preferable if they could have recessed fixing along the lines of typical vertical plank joints
- Flashings around window opening look a bit agricultural- would be good if these could sit behind the plank to hide/ recess exposed fixings

Regards  
Neil
