Planning Application Display

It is our intention to display the planning application design in the project room next to the Grenfell Tower reception

This display will be available for residents to view throughout the planning application period

Consultation

As residents will be aware Planning Application for Grenfell Tower Regeneration Project (GTRP) has been submitted to RBKC Planning Department.

RBKC Planning Department has asked that we review the canopy arrangements, colour scheme, top section of building and the floor arrangements to the lower levels.

The project team is working closely with RBKC Planning Department to ensure that resident wishes are incorporated in any design changes and the outcome of this process will be shared in the New Year.

We recently received communication claiming to represent all residents of Grenfell Tower and we encourage residents to contact us with questions and comments.

We will continue to communicate with, and listen to, residents throughout the Regeneration Project via Individual Letters, Newsletters, Drop in Sessions, Evening meetings and one to one meetings upon request.

Works are underway to the Academy and Leisure Centre (KALC) site and it has been secured to protect residents and visitors as best as possible from site activities.

Consideration has been given to the impact of these works upon residents and visitors including traffic routes and fire safety. These will be reviewed as the various phases of the projects progress.

The Contractors for the KALC project, Leadbitter Group, will soon be sending out its newsletter updating residents on progress. If you have any concerns or questions relating to the KALC project please contact the KALC project team whose details will be included within the newsletter.

Contact Details

If you would like to discuss any part of this newsletter or the Grenfell Tower Regeneration Project please contact;

Paul Dunkerton
Project Manager
