Subject: LFB and Grenfell - demonstration of the smoke vent system yesterday afternoon 28/4
Attachments: image001.jpg; KCTMO Rydon Grenfell Tower newsletter July v9.pdf

Yesterday's demonstration went well apparently, I arrived just in time to see the tender drive off! 2 things arose in relation to the LFB, the below is Rydon feedback:

1 At the end of yesterday's BMS demonstration the Fire Brigade asked whether KCTMO would have any objection to them fitting a secure information box in the foyer which would contain safety details specific to the tower.

I said that I would ask with the expectation that this would be something that you would welcome.

2 They asked how we publicised our stay put policy. I attach the relevant newsletter, and I will put this in the May 2016 one again.
